DETAILED ACTION

Response to Amendment

Allowable Subject Matter

Claim 1 is allowed.

Claim Objections

Claims 3 and 4 are objected to because of the following informalities:

The term "data-structure" in claims 3 and 4 should be written as "data structure".

Appropriate correction is required.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 2 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter since a "data structure" is a mere compilation or arrangement of data; therefore it does not produce a concrete and tangible result.

All dependent claims 3-7 are rejected as having the same deficiencies as the claims they depend from.

Appropriate correction is required.

Response to Arguments

Applicant's arguments filed 7/21/2006 have been fully considered but they are not persuasive.

The Applicant's argument from the last paragraph on page 5 to page 6 of the Applicant's Remarks are not persuasive because:

A data structure is a mere compilation or arrangement of data, wherein the data is the register properties of a hardware device as being claimed in claim 2. A data structure or data, *per se*, is not statutory subject matter since it is not capable of causing functional change in the computer. A data structure does not define any structural and functional interrelationships between the data structure and other claimed aspects of the invention which permit the data structure's functionality to be realized. See MPEP 2106.

In addition, a computer readable medium encoded/stored a data structure does not overcome the 35 U.S.C 101 rejections because it would be a data structure with no functionalities (i.e. similar to music on a disk).

For the reason set forth, claims 2-7 stand rejected under 35 U.S.C 101.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
